Let's affirm with OLEM and OW before I do my round. Would be good to know if folks have any questions or concerns about this approach before we run it all the way up the chain,

Thanks!!

Thank you all! Here is a clean version that incorporates Lindsay's edits for you to share with folks. We will also need to flag this for OLEM and OW, when appropriate, because their actions are referenced in the release and we'll need to coordinate with them to update their web language. Please let me know if you'd like me to go ahead and flag for the two comms directors. Or stand by until you've got your approvals/direction.

Here's the web language with an update from Phil Fine, so you have everything in one place.

Your edits look fine to me. And I agree it's ok not to mention other removals right now.

I made a few edits here. I will need to review this updated approach with folks as we discussed.

We do not mention other potential removals, which I went back and forth about, but I think that's OK.

Let me know if anyone has edits on my edits.

Thanks!
Lindsay
